REPORTING LINE TYPES

SOLID LINE
Direct report indicates formal hierarchical authority.

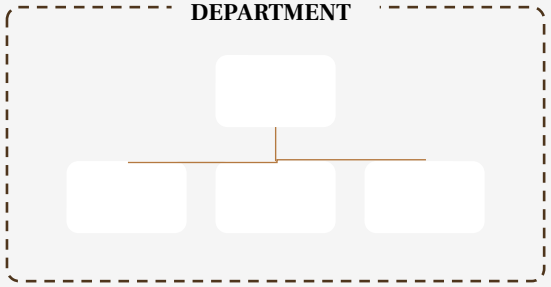

DOTTED LINE
Functional report – indicates collaboration or shared responsibility.

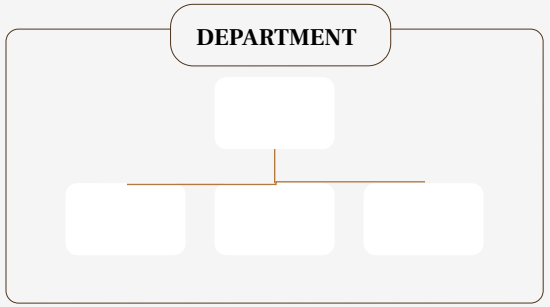

DEPARTMENT CONTAINER

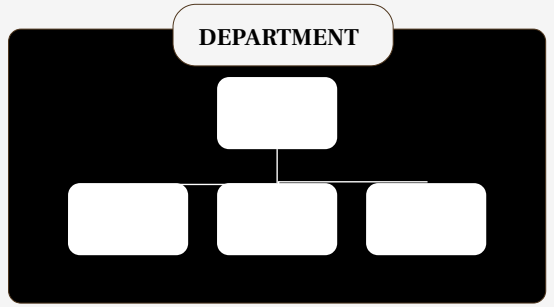

Optional borders and frames to group individuals into departments and teams together.

VARIATIONS

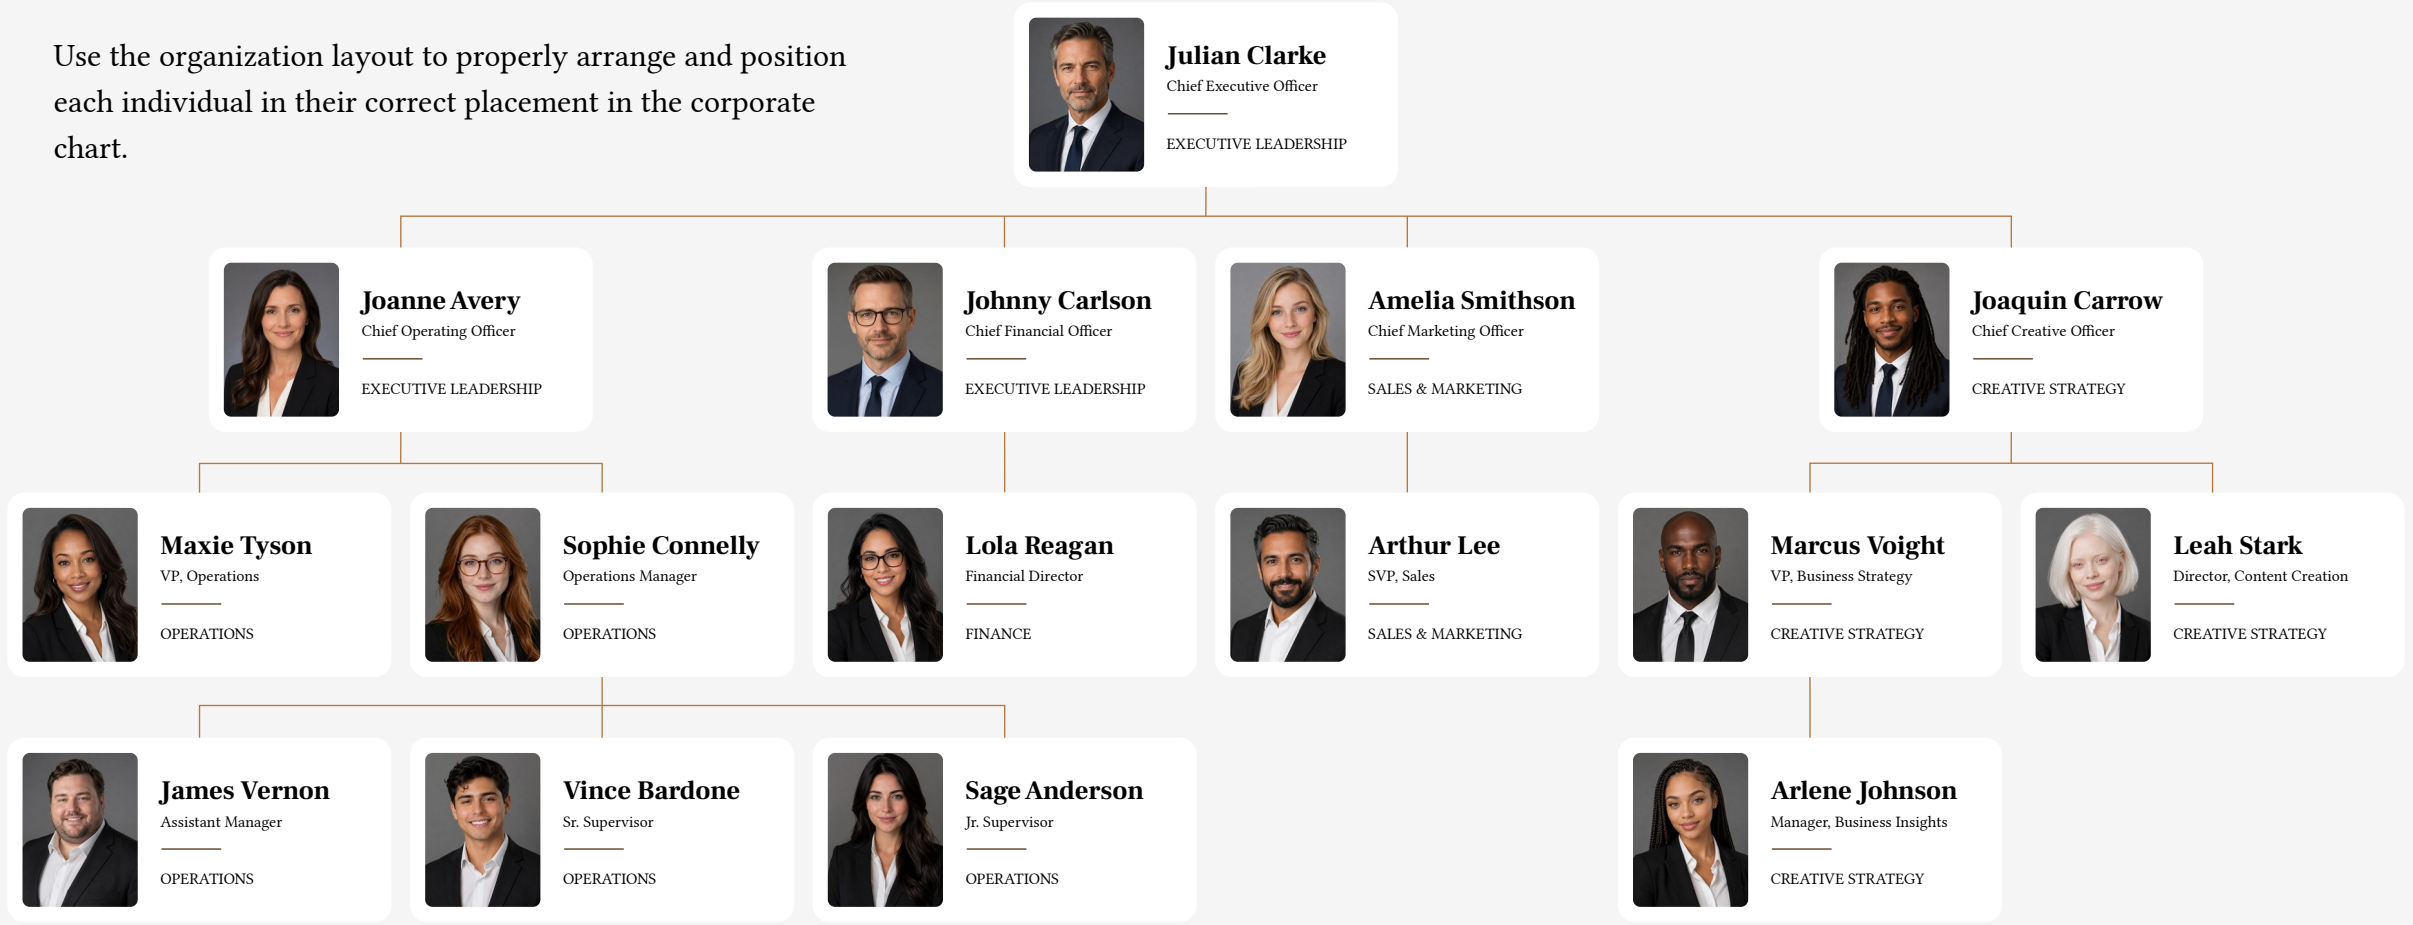

ORGANIZATION LAYOUT

Use the organization layout to properly arrange and position each individual in their correct placement in the corporate chart.

ENTERPRISE EXAMPLE

A 46-person organization shown at full scale — the same person card, reporting line, and department container hold up whether you're charting five people or fifty.

BUILD WORKFLOW

The five-step path from a blank slide to a finished organization chart, in the order the layouts in this section are meant to be used.

1

Create Card

Start from the flagship card in section 03.

2

Group by Dept.

Wrap related cards in a department container.

3

Connect Lines

Add solid lines for direct reports, dotted for functional.

4

Add Layout

Place the group into the organization layout grid.

5

Publish & Refine

Check spacing and titles against the final checklist.

AVERAGE BUILD TIME: 15–30 MIN

FINAL CHECKLIST

Run through this list before you present or export your organization chart to make sure it's client-ready.

- ✓ Every profile photo uses the same crop and eye level
- ✓ Titles use consistent case (Title Case, not ALL CAPS mixed in)
- ✓ All reporting lines connect to the correct manager
- ✓ Department colors are applied consistently across the chart
- ✓ Contact details are current for every executive shown
- ✓ Spacing between cards matches the grid used elsewhere in the deck

04

PRESENTATION BUILDING BLOCKS

A PRODUCTIVITY

Create presentation content, visuals, and layouts faster with practical AI workflows.

AI WORKFLOW

1

Research

Gather org data, bios, and KPIs into a single brief.

2

Plan the Deck

Decide which sections and layouts from this system apply.

3

Generate Content

Use AI to draft bios, headlines, and callout copy.

4

Build in PowerPoint

Drop content into the matching layout from this brand book.

5

Review & Refine

Check the QA checklist, then export or present.

EXECUTIVE PORTRAIT PROMPT

SAMPLE PROMPT

“Professional corporate headshot of a [age range] [gender] executive, confident and approachable expression, tailored navy business suit, soft studio lighting, plain light-gray background, shot from the chest up, shallow depth of field, photorealistic, 4:5 portrait orientation.”

WHEN TO ADJUST

Swap the bracketed details to match each executive, and keep the lighting and background language identical across every portrait so the set looks consistent when placed side by side in the org chart.

PRESENTATION BUILDER

PRESENTATION OUTLINE PROMPT

“Draft a 6-slide outline for an executive leadership presentation using this structure: cover, leadership team, org chart, department highlights, key results, and closing message. Keep each slide to one clear idea.”

THEN, IN THIS BRAND BOOK

Match each outline point to a layout: Cover → slide 1, Leadership → Executive Profile System, Org Chart → section 03, Results → the KPI callout from Building Blocks.

1. Draft outline
2. Pick layouts
3. Fill content
4. QA & export

PROMPT LIBRARY

EXECUTIVE BIO

“Write a 3-sentence executive bio for [name], [title], highlighting [1-2 achievements] and their leadership focus.”

ORG CHART DATA

“Turn this list of names, titles, and managers into a clean reporting hierarchy grouped by department.”

KPI CALLOUT

“Summarize this data into 3 headline stats a leadership audience would care about most, each under 4 words.”

SLIDE HEADLINE

“Suggest 5 confident, plain-language headline options for a slide about [topic], under 8 words each.”

COMPANY CORPORATION

2026 Leadership & Organization Overview

A look at our people, structure, and the year ahead.

PREPARED FOR THE ALL-HANDS MEETING • Q1 2026

SHOWCASE — SAMPLE OUTPUT

5 Priorities for FY26

1

Grow Enterprise Accounts

Deepen wallet share with our top 20 clients through quarterly business reviews.

2

Launch the Self-Serve Tier

Open a lighter-weight product path for small and mid-market buyers.

3

Invest in Manager Enablement

Give every people manager a consistent playbook and coaching cadence.

4

Modernize the Data Platform

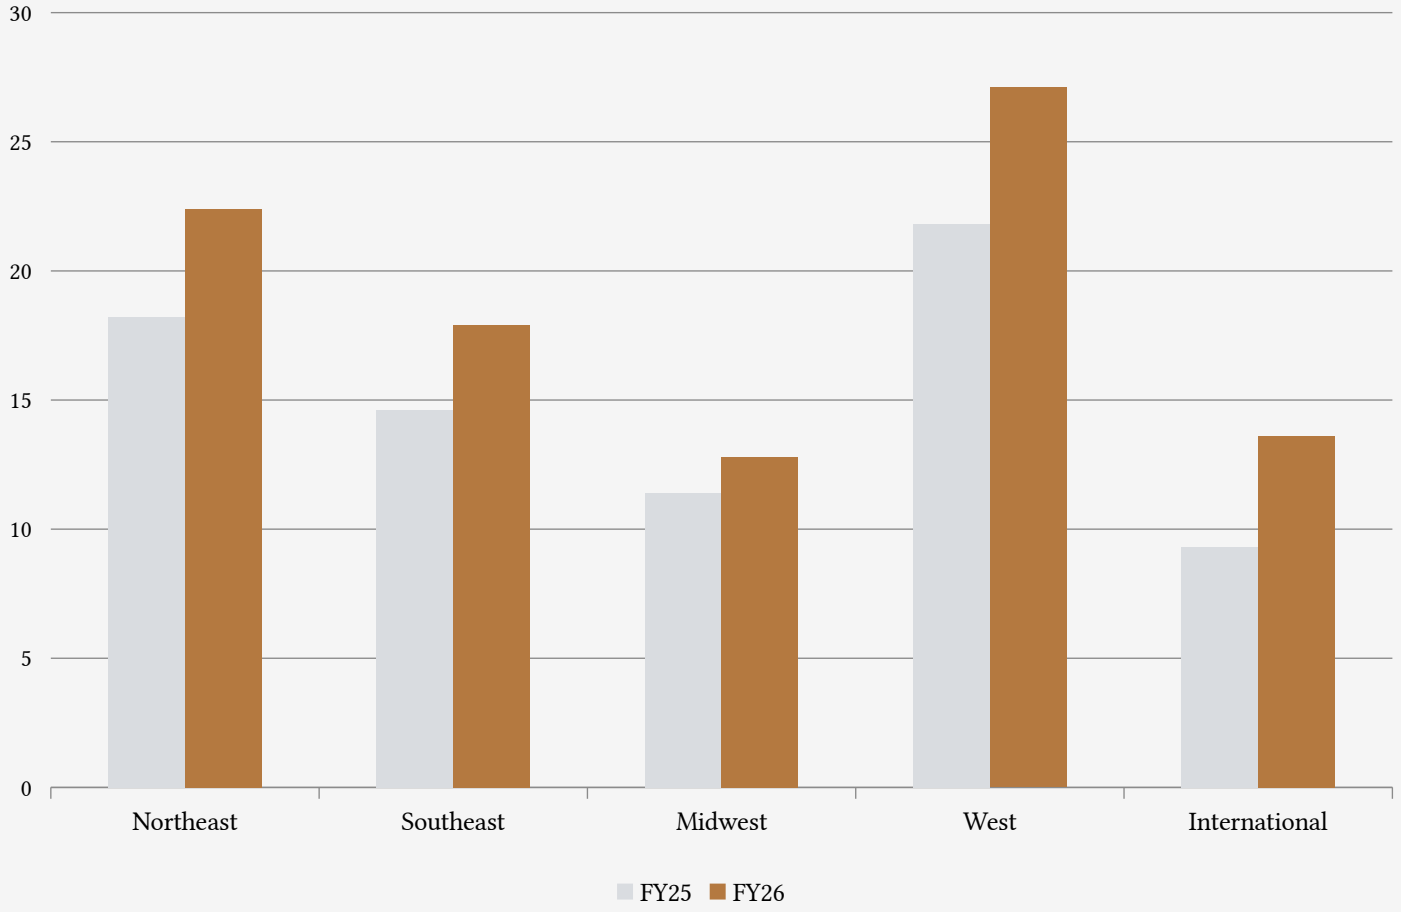

Retire legacy reporting and consolidate around a single source of truth.

5

Expand Into Two New Markets

Stand up local support and compliance ahead of a regional launch.

Revenue Growth by Region

WHY IT MATTERS

Every region grew year over year, led by the West at 27.1% of FY26 revenue. International is now a meaningful contributor for the first time, up from 9.3% to 13.6%.

FY26 Roadmap

Q1

Foundation

Ship the data platform migration and finalize the FY26 operating plan.

Q2

Expansion

Open two new regional offices and launch the self-serve product tier.

Q3

Scale

Roll out manager enablement program company-wide.

Q4

Optimize

Close the year with a full performance and compensation review.

What Our Clients Say

> Switching to their platform cut our reporting time in half and gave leadership a single source of truth for the first time. It's rare to find a partner that ships this fast without breaking things.
